

## STATE OF CALIFORNIA

# Sacramento Municipal Utility Rate Reduction

**Short Description:** A discount rate is offered for electricity used to charge Electric Vehicles

**Beneficiary:** Sacramento Municipal Utility District customer who charges an electric vehicle

**Type of Incentive:** Reduced rate for electricity used

**Effective Dates:** Current benefit, no sunset date

**Value of Benefit:** Reduced rate for electricity used

**Full Description:** SMUD's EV charging rate is approximately half the regular residential rate. To take advantage of the EV charging rate, an additional meter must be installed at the residence with a dedicated EV charging outlet. To request the EV charging rate, or for questions concerning charging stations and general EV information, please contact SMUD Electric Transportation at (916) 732-5486.

Rate Schedule R for Residential Customers and rate schedule GS for commercial customers provide off-peak charging at about \$ 0.04 per kWh, which amounts to an annual refueling cost between \$125 and \$250 per year for the typical EV user.
