

This does not constitute tax advice. All persons considering use of available incentives should consult with their own tax professional to determine eligibility, specific amount of benefit available, if any, and further details.

STATE OF CALIFORNIA

San Diego Gas and Electric Rate Reduction

Short Description: San Diego Gas & Electric (SDG&E) offers discounted rates to customers for electricity used to charge EVs or qualified compressed natural gas fueling facilities.

Beneficiary: San Diego Gas & Electric customer who charges an electric vehicle

Type of Incentive: Reduced rate for electricity

Effective Dates: Current benefit, no sunset date

Value of Benefit: Not specified

Full Description:

San Diego Gas & Electric (SDG&E) offers discounted rates to customers for electricity used to charge EVs or qualified compressed natural gas fueling facilities. SDG&E's EV Time of Use (TOU) rate is available in three variations, all of which charge customers based on the time of day the energy is consumed. These TOU rates are non-tiered and all SDG&E rates have four main components, notably the Residential Rate Tariff and the Electric Energy Commodity Rates.
