RACE-BRED. FACTORY-TUNED. EXTREME PERFORMANCE.

NISMO has been the industry leader among tuner enthusiasts since 1984. From Japanese GT racers to Dakar Rally trucks, to the wildest versions of the Skyline GT-R, NISMO gives you an all-access pass to factory-engineered, dyno-tested, racetrack-proven performance. Our passion for racing and dedication to winning has been directly translated into a line of factory-tuned technologies and components.

NISMO S-Tune components are designed for drivers looking for that boost in street-legal performance, but with an extra the aftermarket just can't match: a 3-year/36,000-mile warranty.

For the ultimate hard-core mods to dominate the track, there's only one choice: NISMO R-Tune components. Obviously, these parts don't carry a warranty, but, then again, maximum performance always comes with trade-offs.

So whether it's for your 2008 Z[®] or one you've had a while, every NISMO part is designed and crafted to integrate seamlessly, perform brilliantly and show like a piece of performance art.
