Dealer sets actual price. ²Driving is serious business and requires your full attention. Do not operate any devices connected to the auxiliary audio input jack while driving. ³VDC, which should remain on when driving except when freeing the vehicle from mud or snow, cannot prevent accidents due to abrupt steering, carelessness, or dangerous driving techniques. Always drive safely. ⁴Always give your full attention to driving. Avoid operating your iPod in such a way that you can be distracted during vehicle operation. iPod® charge through the Interface System may only be supported via use of FireWire® devices. See Dealer for details. ⁵The optional Rear Sonar System is a convenience, but not a substitute for proper backing procedures. Always turn and check that it is safe to do so before backing up. The Rear Sonar System may not detect every object behind you. ⁶XM® Satellite Radio requires XM subscription sold separately after first three trial months. All fees and programming subject to change.
