A Fleet is a group of vehicles operated by a single business. At Nissan, we elevate this definition by expanding it to a variety of business, from small to large, that work in a variety of disciplines. A Nissan Fleet can start with 2 vehicles, and expand indefinitely. Incentives are volume based, meaning that the more vehicles you need, the more incentives will work for you.

**SMALL FLEET**

Starting at 2 vehicles and including the entire Nissan lineup, work with a Dealer to help you determine which available incentives and upfits can best suit your business needs.

**LARGE FLEET**
11 or more vehicles
Looking for 11 vehicles or more? Find your fleet with a Commercial Sales Manager and take advantage of more volume based incentives.
