

DOOR TO DOOR NAVIGATION

QUICK START GUIDE

TOMTOM 

GO WITH CONFIDENCE

GETTING STARTED

Congratulations. Your new Nissan vehicle comes with a built-in navigation system that guides you door to door from one destination to the next, and back to your vehicle again. With its seamless smartphone integration, you'll have access to one-of-a-kind features like:

PREMIUM TRAFFIC – the most accurate data out there. It's even better than you can get by smartphone alone.

LAST MILE NAVIGATION – it guides you to your final destination after you park your car up to 3 miles (5 km) away.

FIND MY CAR – at the concert, stadium or mall, your phone will automatically know exactly where you parked and guide you back.

QUICK START STEPS

Your navigation system is easy to set up and use. We'll walk you through each step of the way.

Create Account

Connect Phone

Update Maps

Premium Traffic

Last Mile Navigation & Find My Car

CREATE ACCOUNT

1

DOWNLOAD THE APP

Download the Nissan Connect
Door to Door Navigation app from
Google Play or the Apple App Store.

2

CREATE YOUR USER ACCOUNT

This lets you personalize your experience,
including saving your most frequent
destinations to access them fast.

CONNECT PHONE

3

CONNECT PHONE TO VEHICLE

Establish a Bluetooth connection between your vehicle navigation system and your smartphone. With your phone's Bluetooth turned on and your app open and running, the two will pair automatically. To make sure your connection is sound, you'll be asked to verify a PIN code displayed on both the car's screen and your phone.

4

SECURITY - VERIFY CONNECTION

Once your devices are connected, you'll be asked to verify the Door To Door application connection for security as well.

UPDATE MAPS

Your navigation system uses precise street and highway information to conveniently get you where you want to go. To make sure you're starting with the most current data, and to keep your maps the most up-to-date, use Automatic Map Updates.

5 SELECT MAP UPDATE

From your vehicle's touchscreen select:

Menu > Information >
System Information > Map Update

6 UPDATE USING WIFI

Then you'll want to choose the Update Using WiFi option. Now, when your vehicle is connected to your home WiFi network, map updates will automatically download as they become available.

If you don't have WiFi access to your car (if you live in an apartment, for example), you can also update your maps periodically using the Nissan Map Update Tool on your PC/Mac and a USB stick. For more information visit: apps.nissan.navshop.com

PREMIUM TRAFFIC

This exclusive feature is where your Nissan navigation system really shines. With real time routing, detailed traffic incident and backup information, plus reliable delay and arrival times, turning on Premium Traffic is your secret weapon to saving time, reducing stress and avoiding congestion.

1

NAVIGATION SETTINGS

With your vehicle system and your phone's Door To Door Navigation app paired, go to the Navigation Settings on your car's touchscreen.

[Traffic Info Settings > Use Premium Traffic](#)

2

NAVIGATION SETTINGS

To get more frequent traffic updates (the default setting is 5 minutes, every 2 minutes is suggested), go back to Traffic Info Settings:

[Traffic Info Settings > Premium Traffic Update Settings > Time Between Updates > Every 2 Minutes](#)

LAST MILE NAVIGATION & FIND MY CAR

These exclusive features of your Nissan navigation system help you find your way to your final destination and back to your car with walking directions up to 3 miles (5 km) away. So if you can't park close to where you're going or forgot where you parked, you're always covered.

1 LAST MILE NAVIGATION

If your Door To Door Navigation app was connected to your vehicle's navigation system, the Last Mile Navigation feature starts automatically when you leave your car. You'll receive a notification on your phone giving the address of where you're parked, and a map with a walking route to your final destination.

2 FIND MY CAR

When you are ready to return to your car, tap the Locate Car symbol in the Door To Door Navigation app. Then select Walk Here to get a walking route back to your car from wherever you are. You can also select Navigate To Destination if you want to share your car location with a different navigation application on your smartphone.

For More Information - You'll find detailed instructions on setting up and using your Nissan navigation system plus other online tools at the Door To Door Navigation website. Visit apps.nissan.navshop.com
