

DIY CARDBOARD NISSAN

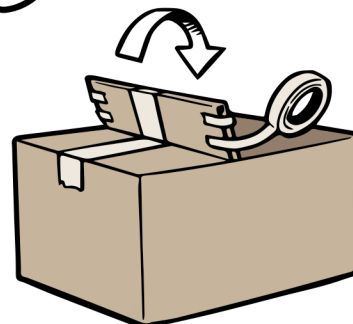

Share the thrills and excitement of driving a Nissan with your kids right in your living room. Follow these fun, easy steps to build them their very own cardboard Nissan and get them driving in no time.

1 FIND A CARDBOARD BOX BIG ENOUGH TO FIT YOUR LITTLE ONE(S). SEAL THE TOP OF THE BOX WITH PACKING TAPE.

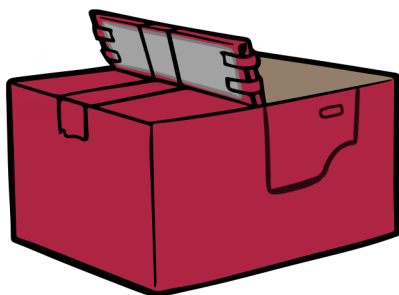

2 HAVE A GROWN UP CUT ABOUT TWO-THIRDS OF THE TOP OF THE BOX.

3 FOLD THE TOP AS SHOWN AND AFFIX IT WITH TAPE. TA-DA! NOW YOU'VE GOT A WINDSHIELD!

4 NOW, LET THE KIDS PAINT IT IN ANY COLOR THEY'D LIKE.

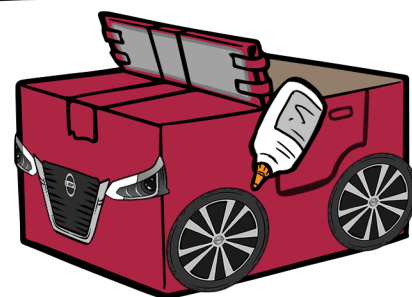

APPLY PATTERNS, ANIMAL SKETCHES OR WHATEVER ELSE THEY WANT. OUTLINE THE DOORS - TWO OR FOUR, DEPENDING ON YOUR STYLE.

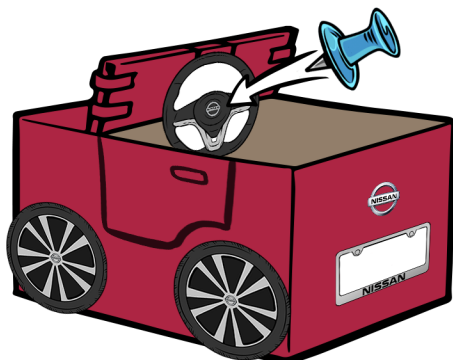

5 WHILE THE PAINT DRIES, CHECK OUT THE OTHER PAGES OF THIS PDF WHERE YOU'LL FIND ALL KINDS OF COOL NISSAN CAR PARTS. LET YOUR KIDS CHOOSE THE PARTS THEY WANT.

6 PRINT, CUT OUT, AND GLUE IN ALL THE ELEMENTS THEY CHOSE (WHEELS, STEERING WHEEL, LOGOS, ETC.)

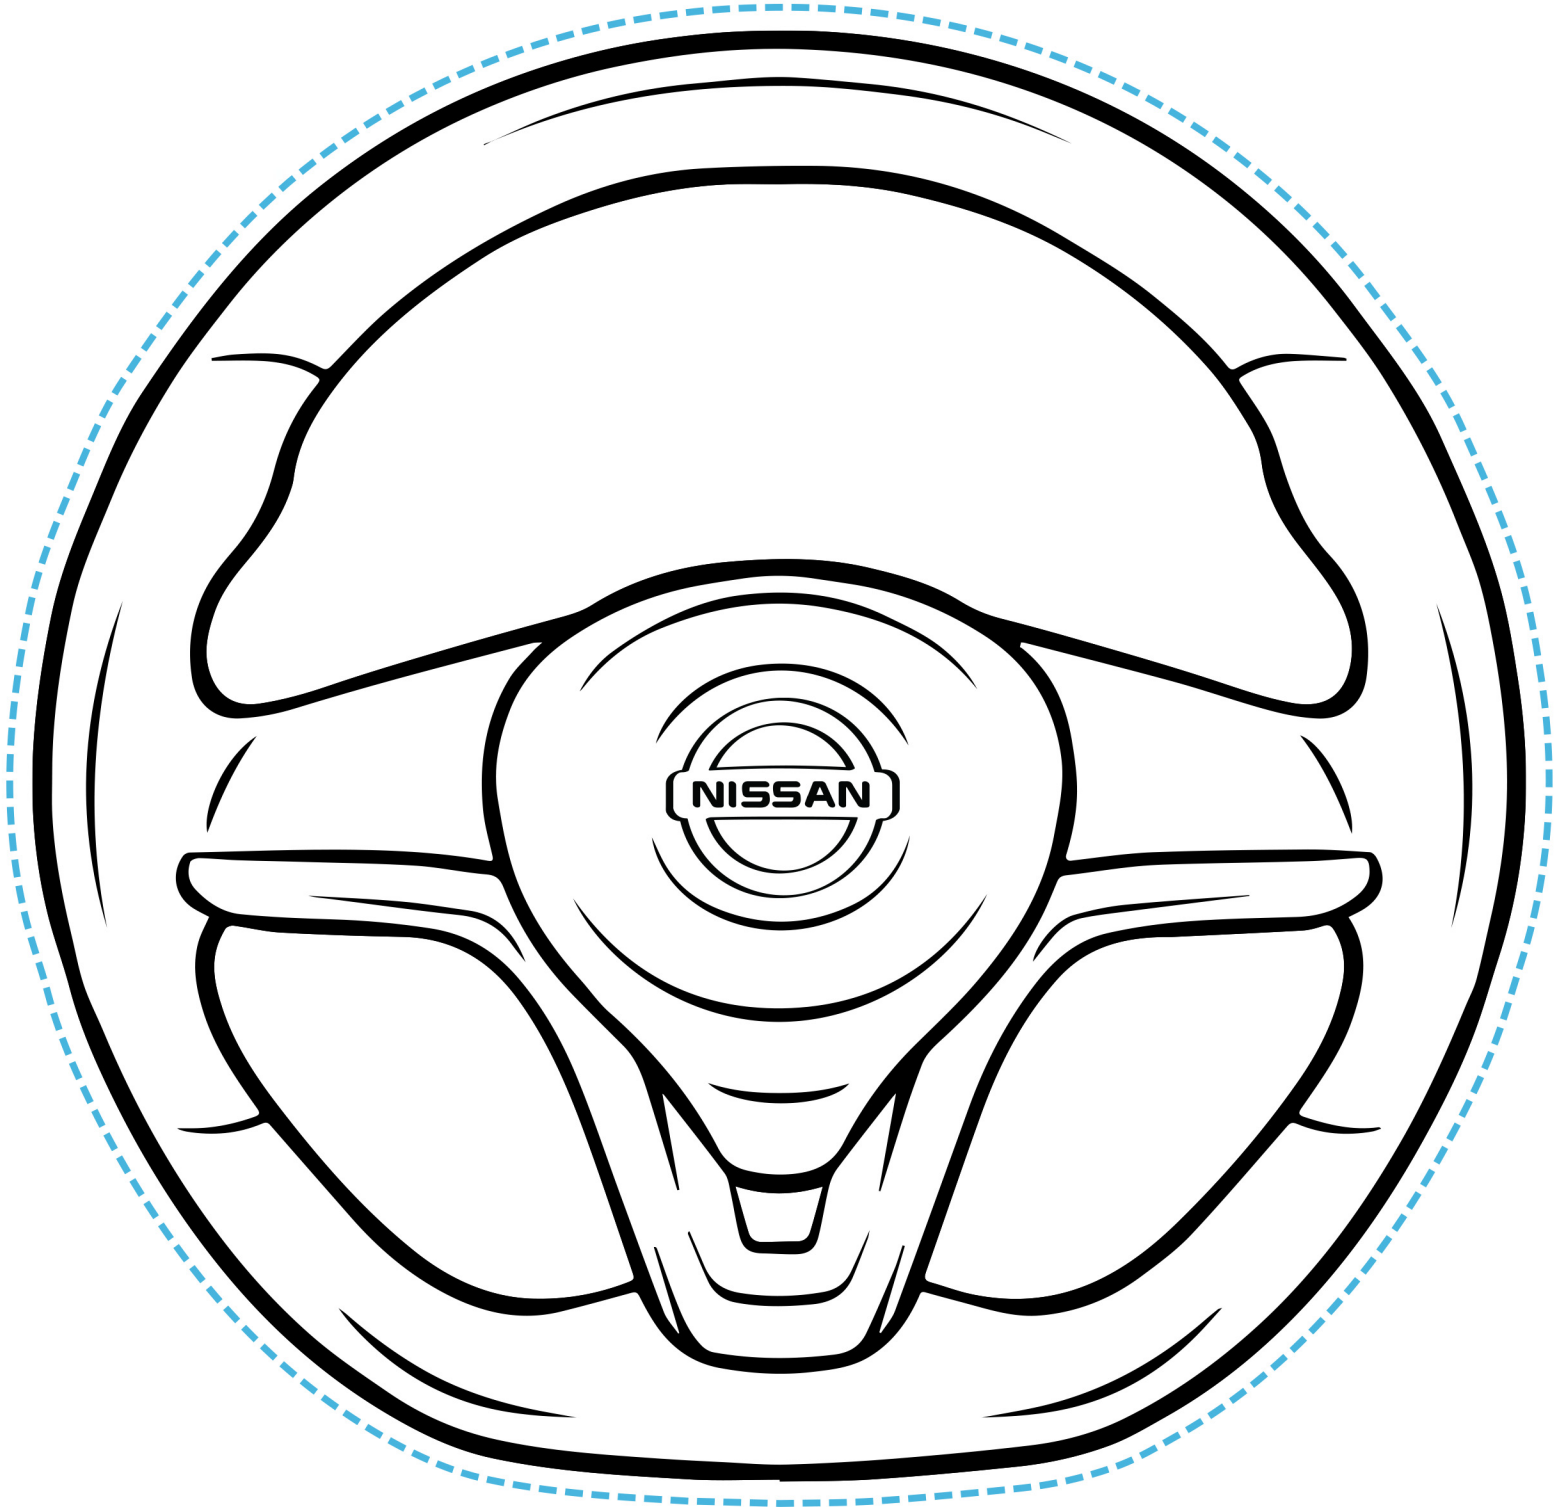

7 FOR A MOVABLE STEERING WHEEL, USE A PAPER PLATE OR ANOTHER PIECE OF CARDBOARD AND USE A PENCIL OR CORK WITH TACKS TO AFFIX IT. BAM!

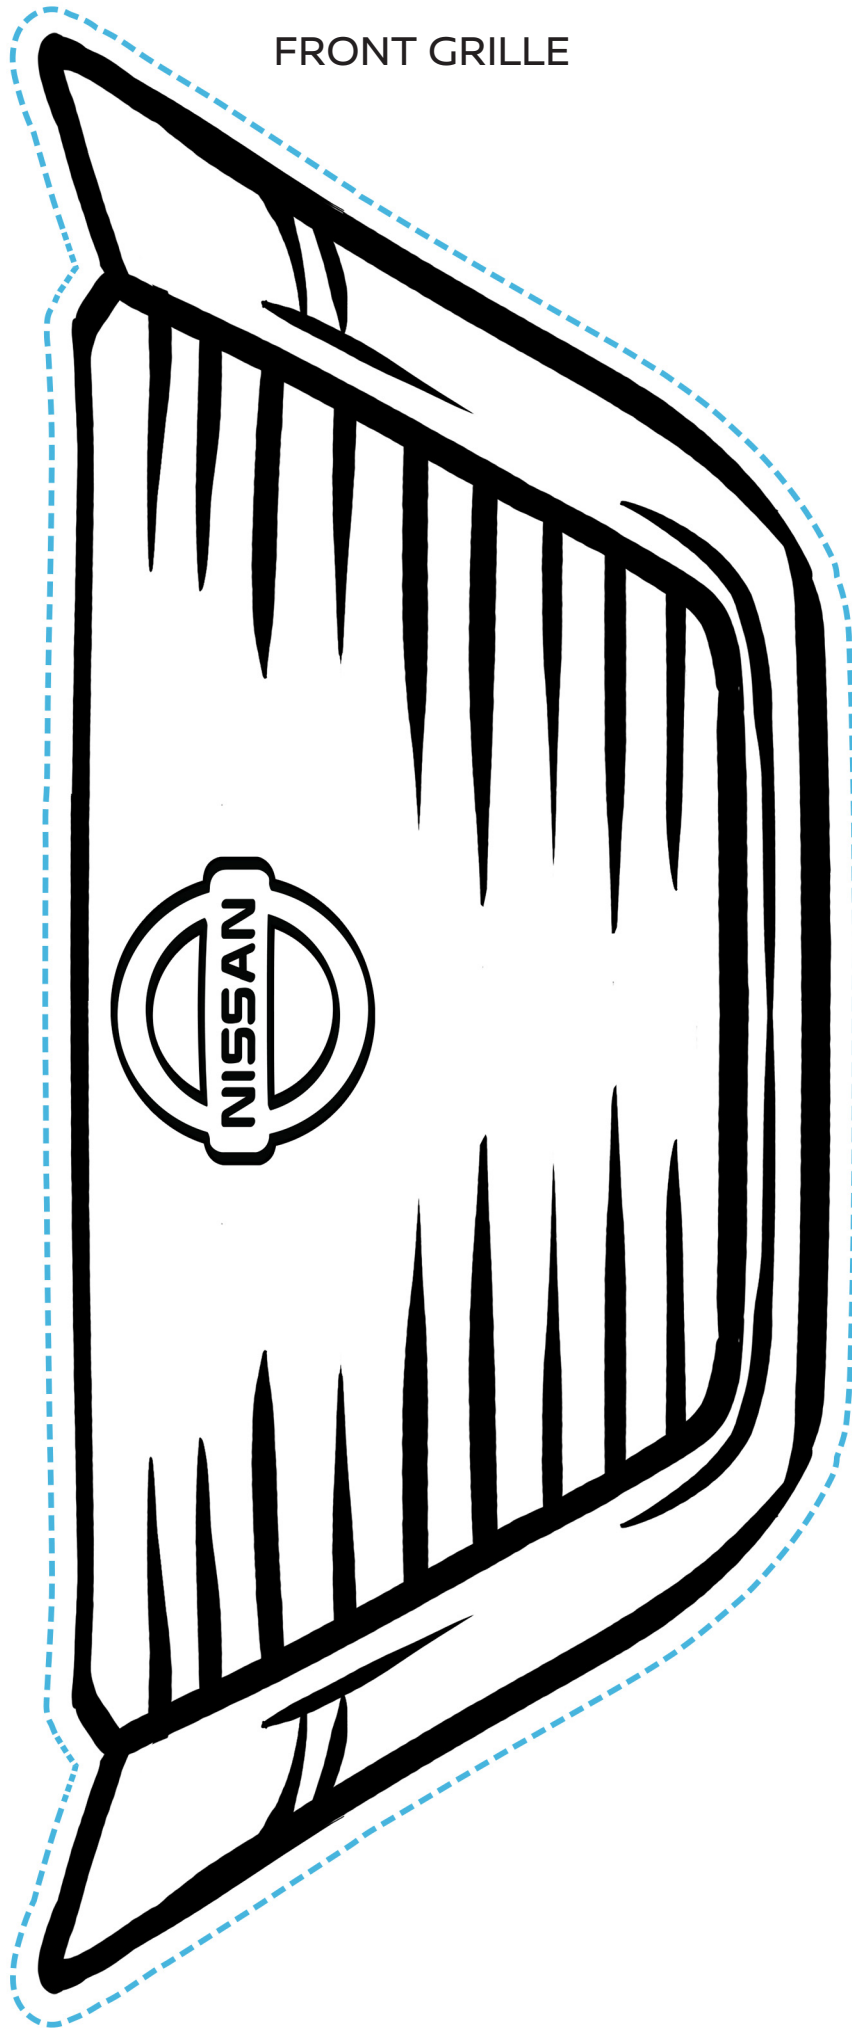

THAT'S IT! NOW YOUR KID CAN TAKE THEIR NISSAN FOR A SPIN RIGHT IN YOUR LIVING ROOM. OH, AND DON'T FORGET TO BUCKLE UP!

BONUS STEP: MAKE SIDE VIEW MIRRORS BY TAKING TWO, FLAT SMALL CARDBOARD PIECES AND FOLDING THEM A QUARTER OF THE WAY. GLUE THE FOLDED PART ONTO THE SIDES OF THE BOXES. THEN, SIMPLY GLUE ALUMINUM FOIL ONTO THE PIECES TO ADD YOUR MIRRORS.
