Appearance Protection

There's a big difference between a vehicle that's clean (just washed) and a clean vehicle (one that has been protected inside and out). A clean vehicle has greater value at trade in time. A major portion of a vehicle's value is determined by its appearance. Consequently, a small investment now in preserving the beauty of your vehicle may reduce your turn-in costs and preserve your trade-in value.

There are environmental conditions beyond the manufacturer's control. That's why Nissan Security+Plus Appearance Protection Products are perfect for protecting your vehicle against these and similar issues that could harm your vehicle's appearance and value:
