Nissan Intelligent Mobility moves you one step ahead. In cars that feel like an extension of you, helping you see more and sense more, reacting with you, and sometimes even for you. Nissan Intelligent Mobility is about a better future – moving through life with greater confidence, excitement and connection to the world around you.

Traffic Sign Recognition may not detect and read all traffic signs in all conditions. Driver should monitor all traffic signs and information displayed is dependent on how vehicle is equipped.

Intelligent Near-Park Assist may not provide warning or braking in all conditions. Driver should inspect surroundings and take all necessary precautions before proceeding.

Rear Cross Traffic Alert may not detect all vehicles. See Owner's Manual for safety information.

Driver Monitoring system monitors steering wheel motion, brake pedal depression, and accelerator pedal depression and can alert you if it detects signs of drowsiness or瞌睡.

Lane Departure Warning and Intelligent Lane Intervention operate only when lane markings are able to be detected. See Owner's Manual for safety information.

Forward Collision Alert operation is conditional and dependent on vehicle's systems and settings, and the complexity of the surrounding environment and conditions. Driver should monitor traffic conditions and always be prepared to take immediate control.

Blind Spot Warning cannot prevent all collisions and may not detect and warn of every object. Always check your surroundings by using mirrors and turning before changing lanes.

Rear Cross Traffic Alert may not detect all vehicles.

The Tire Pressure Monitoring System is an aid to help detect a low tire pressure condition. It is not a substitute for regular tire pressure checks and does not monitor tire pressure in real time. Check tire pressure frequently and always before long trips.

A 2021 EPA estimate is available upon request for vehicles sold in the United States. The actual mileage achieved by a vehicle will depend on many factors, including the operating speed, driving conditions, and driver habits.

State laws may apply. Review before using. Never program while driving. GPS mapping may vary from this brochure. Some vehicles shown with optional equipment. See the actual vehicle for complete accuracy. Availability and delivery times for particular models or equipment may vary.
Unlock the pure joy of driving. How? With the world's first variable compression turbo engine. A suite of available safety features that can respond to the world around you in real time. Confidence from available Intelligent All-Wheel Drive. And surprising connectivity before you even reach the driver's seat. Nissan Altima. This is tech that changes every part of your drive. This is Nissan Intelligent Mobility.
Enjoy the drive even more with the groundbreaking ProPILOT Assist. Your Altima® helps keep you centered in your lane, and following the car ahead at a preset distance. It can even bring your Altima to a full stop based on the highway traffic flow, and can bring you back up to speed when traffic starts moving again.5, 6

Nissan Safety Shield® 360
Nissan Intelligent Mobility is changing how you move forever with technology that makes you feel more connected, confident, and excited.

As part of Nissan Intelligent Mobility, Nissan Safety Shield® 360 includes features that can help you see more, sense more, and can give you an assist when you need it. The following features come standard on every 2021 Nissan Altima SV and above:2, 7

- Automatic Emergency Braking with Pedestrian Detection®
- Rear Automatic Braking®
- Rear Cross Traffic Alert®
- Blind Spot Warning®
- Lane Departure Warning®
- High Beam Assist

Intelligent Around View® Monitor
Four cameras make parking easy with a virtual composite 360° bird's-eye view of your Altima. You can select from split-screen close-ups of the front, rear, and curbside views for a better look. It also gives you an on-screen heads-up when it detects moving objects near your vehicle. We're looking at you, shopping cart.6, 13, 14
Altima gives you peace of mind you never thought you could get from a sedan. Part of Nissan Intelligent Mobility, Intelligent All-Wheel Drive continuously monitors road conditions and responds in an instant, sending power to the wheels that need it most.

Apple CarPlay® integration
People to see? Places to be? Just ask Siri®. Equipped with Siri® voice control, Apple CarPlay® brings your contacts, favorite messaging apps, Apple Music®, playlists, Apple Maps, and more on board to your Altima. Simply plug in your compatible iPhone® and go.

Intelligent All-Wheel Drive
Altima gives you peace of mind you never thought you could get from a sedan. Part of Nissan Intelligent Mobility, Intelligent All-Wheel Drive continuously monitors road conditions and responds in an instant, sending power to the wheels that need it most.

Talk to your Altima with NissanConnect® Services
With available NissanConnect® Services powered by SiriusXM®, you can access your Altima remotely using the NissanConnect® Services Skill for Amazon Alexa or Action for Google Assistant. Start your engine, unlock your doors, and more.

The world’s first production variable compression turbo engine
Imagine an engine so smart it seems to anticipate what you want. Whether it’s turbocharged power that pushes you back in your seat or impressive fuel efficiency, even in city streets, Altima SR’s shape-shifting VC-turbo™ engine lets you have both – without compromise.
