Nissan Intelligent Mobility moves you one step ahead. In cars that feel like an extension of you, helping you see more and sense more, reacting with you, and sometimes even for you. Nissan Intelligent Mobility is about a better future – moving through life with greater confidence, excitement and connection to the world around you.
There’s excitement. Then there’s the kind of excitement that makes every moment behind the wheel a rush. Up to 226 miles of range on Nissan LEAF® S PLUS means your destination possibilities have opened up. Put your compatible smartphone on the big screen and connect to your world. Drive with more confidence, thanks to a suite of standard Nissan Safety Shield® 360 features that can look out all around you. The 2021 Nissan LEAF. This is how driving should feel. This is Nissan Intelligent Mobility.

EPA RANGE UP TO 226 MILES ON S PLUS
SL PLUS shown with EPA range up to 215 miles.
Imagine having the option to drive with one pedal. Just press down for an instant rush and ease off to slow down and come to a stop. It’s not only fun, but encourages you to drive more efficiently, and can help extend your range. Of course, going back to driving with two pedals is as easy as flipping a switch. e-Pedal – One-pedal driving

Feel the rush of instant acceleration

It’s a thrill you never saw coming. Nissan LEAF’s 100% electric drivetrain delivers instant acceleration as soon as you touch the pedal. Turn the wheel, and the fun continues, with a battery pack that sits low in the chassis, letting you hug the road.

Confidence has never come this easy

With available ProPILOT Assist, the Nissan LEAF helps out with daily highway driving – helping you follow the car ahead at a preset distance or helping keep you centered in your lane. It can even bring you to a full stop based on the traffic flow, and can bring you back up to speed when traffic starts moving again. It all adds up to a more confident, enjoyable drive.

Helps keep you centered – even in gentle curves

Can even come to a complete stop

Helps maintain your preset speed and distance

Confidence has never come this easy
Nissan Intelligent Mobility is changing how you move forever with technology that makes you feel more connected, confident, and excited.

As part of Nissan Intelligent Mobility, Safety Shield 360 consists of features that help you see more, sense more, and can give you an assist when you need it. The following features are standard on Nissan LEAF.

- **Nissan Safety Shield® 360**
  - Automatic Emergency Braking with Pedestrian Detection
  - Rear Automatic Braking
  - Rear Cross Traffic Alert
  - Blind Spot Warning
  - Lane Departure Warning
  - High Beam Assist

There’s nothing like seeing it on the big screen

People to see? Places to be? Just ask Siri. Equipped with Siri® voice control, standard Apple CarPlay® brings your contacts, favorite messaging apps, Apple Music® playlists, Apple Maps, and more on board to your Nissan LEAF. Simply plug in your compatible iPhone® and go.

With standard Android Auto™ you can keep your eyes on the road and hands on the wheel while using your voice to help you with your day. Ask Google to play your favorite song, navigate home, or respond to a text hands-free. Just say, “Hey Google” or long-press the voice control button on your steering wheel.
Get your day started with NissanConnect® EV & Services

Your Nissan LEAF® is powered up and you’re connected—and you haven’t even stepped out of the house yet. The NissanConnect® EV Action on Google makes it possible. Or just use the NissanConnect® EV & Services app on your compatible smartphone to lock and unlock your doors, heat or cool your cabin while charging, and more.¹,¹¹

Charging at home
Charge overnight, when electricity rates are often lower, using an available 240-V plug.¹⁶

Charging on the go
An ever-expanding network of public EV charging stations means you’ve got a lot of options for your next charge. Just use the available menu on your Nissan LEAF’s center touch-screen display— you can even filter for the type of charger you are looking for, type of payment method, and more.¹²,¹⁸

Connect the way you want
With NissanConnect® technologies, you can take how you stay in touch to the next level. Plug in and access your compatible smartphone. Available Nissan Door to Door Navigation makes driving to your next destination seamless. Bluetooth® and hands-free texting mean it’s easier than ever to connect with your world. And you’ll stay charged up with three standard USB ports, and a standard USB-C port.²,¹²,¹₃

Grab hold of a driver-centric design

It’s all around you. Bold lines, distinctive touches, and the sense that this is a vehicle like no other. The Nissan LEAF™’s driver-centric environment proves you don’t have to sacrifice comfort or convenience when driving electric. With features like a telescoping D-shaped steering wheel, distinctive center console, and a “floating” touch-screen display that puts your compatible iPhone® on center stage with Apple CarPlay®, it’s clear the interior was designed with you in mind.
