How will you go Rogue?

Capable of crossing over into every aspect of your day in fresh, unexpected ways. Thinking fast and responding faster. A never-ending capacity for adventure. This is the all-new Nissan Rogue.
Start with the largest head-up display in its class in the upper left corner. Then drop your gaze to the digital dashboard — twelve inches of available vibrant data right behind the steering wheel. The third display, the largest available infotainment screen in its class, sits just to the right. Together, they offer nearly three feet of digital information, allowing you to configure the all-new Rogue to what you need in the moment. Now look again. See how each display is positioned to give you the info you want? This is customization pixel by pixel.

Three genius displays, so many pixels to play with

You heard it here first. Bose, a leader in high-fidelity sound systems and a long-time Nissan partner, designed an incredible highly customized listening experience for the all-new Rogue. Based on proprietary design and the acoustical analysis of the cabin, Bose brings the power of sound to every seat.
Room for five, space for even the biggest personalities

Pick your seat and relax. Building a crossover from the ground up is about more than premium amenities. It’s about designing an experience, where family and friends feel welcome and any size personality fits in. So enjoy the available soft semi-aniline leather appointments, the rear USB ports, and the class-exclusive available Tri-Zone Automatic Temperature Control. Revel in rear doors that open almost 90° for easier entry. And amaze everyone with the breathtaking view from the available Dual Panel Panoramic Moonroof.

Nissan Rogue® Platinum AWD shown in Charcoal Quilted Semi-aniline Leather.®
Meet Nissan’s most capable Rogue® yet. An all-new available Intelligent All-Wheel Drive system with direct coupling reacts quicker than ever to help enhance stability and traction. With so many possibilities in front of you, there’s virtually no limit to where you can go. That’s why Rogue offers up to five drive modes for practically every scenario. Choose Auto Mode to handle your everyday drive, or select one of the specialized modes to tackle more challenging conditions.

**Snow Mode** If one of your favorite routes has fresh powder, available Snow Mode is engineered to help you make fresh tracks. It knows to back off on the throttle and shift to a higher gear ratio, helping you stay in control.

**Off-Road Mode** From gravel to sand to dirt, available Off-Road Mode is uniquely tuned to help you get up to speed. By balancing the transmission and throttle response, the all-new Rogue tailors your all-terrain experience for maximum confidence.

**Eco Mode** Like its name implies, Eco Mode is engineered to help boost fuel economy. When selected, engine and Xtronic CVT® (Continuously Variable Transmission) controls change to help you drive as efficiently as possible.

**Sport Mode** The fun starts here, especially if you’re about to take on a series of curves. Dial up Sport Mode and the all-new Rogue responds with tighter steering and sharper throttle response. You respond with growing confidence and huge grins as you enter every twist and turn.
You may not know what’s ahead but with ProPILOT Assist with Navi-link, the all-new Rogue® is on it. ProPILOT Assist helps you navigate stop-and-go highway traffic while also helping to keep you centered in your lane.

By utilizing highway mapping, ProPILOT Assist with Navi-link is able to “read the road.” What it does with that information gives you a totally new perspective.

- Helps smooth the way for upcoming turns, junctions, and off-ramps by adjusting your speed
- Can track posted speed limits with the ability to alter your set speed accordingly

Smarter phone connectivity
Class-exclusive available wireless Apple CarPlay® integration lets you see Places to go, just ask Siri®. Equipped with Siri® voice control, Apple CarPlay® brings your contacts, favorite messaging apps, Apple Music® playlists, Apple Maps, and more on board to your Rogue. No need to plug-in. Your world is now freed from wires.

Wireless charging You’re always on the move, sometimes changing direction on a moment’s notice. Keep going without the clutter or frustration of cords. Wirelessly recharge your compatible smartphone and re-energize your life.

Unexpected cargo flexibility
Kick your foot under the rear bumper and the available Motion Activated Liftgate opens to reveal a generous cargo area.

Inside, it’s easy to configure the space. With the class-exclusive available Divide-N-Hides® cargo system, a set of adjustable dividers gives you six different configurations. You can construct everything from a private storage area to a series of layered shelves. So get in there and mix it up.

Want even more space? It’s as easy as pulling an available lever in the cargo area and watching the rear seats fold down to take in every experience.

Standard Nissan Safety Shield® 360
Imagine feeling confident in most any situation. With a class-exclusive suite of standard Safety Shield 360® technologies, the all-new Rogue can help look out for you all around. This is peace of mind you can enjoy, mile after mile.
