Nissan Intelligent Mobility moves you one step ahead, in cars that feel like an extension of you, helping you see more and sense more, reacting with you, and sometimes even for you. Nissan Intelligent Mobility is about a better future — moving through life with greater confidence, excitement and connection to the world around you.

...
Find your frontier

Your Frontier® is calling. It’s time to go out and find it. Redefine your idea of freedom with capability that expands your realm and inspires new adventures. Pack your duffel bags, prep your gear. This is the all-new Nissan Frontier.
Welcome to the great indoors

The destination is rocky, dusty, and sometimes rough. Getting there doesn’t have to be. Start your Frontier® remotely,* hop in, and you’ll be cradled in a prewarmed or precooled interior that’s thoughtfully designed and thoroughly equipped. Defy discomfort with standard Zero Gravity front seats, and conquer the cold with available Dual Zone Automatic Temperature Control and available heated front seats.

*Remote Engine Start System is standard on PRO-4X trim level.
Feed your craving for dirt

Between the straight lines and smooth surfaces of society lies all things jagged, dusty, rutted, sandy, muddy, and rocky. Excel in this environment with Frontier® PRO-4X®. It’s a Frontier optimized for off-road abuse, so you can go farther into the backcountry with more confidence, and more grins mile after mile.

4WD LO The Frontier PRO-4X is a true 4x4, with three driver-selectable modes — 2WD, 4H, and 4LO, so you can thrive in just about any environment you encounter.

Dedicated Off-Road Display Keep track of pitch, roll, and also key off-road functions like 4x4 engagement, and differential lock status for a more confident day on the trail with the PRO-4X.

Off-Road Upgrades With its all-terrain tires, Bilstein® off-road performance shocks, electronic locking rear differential and skid plates, the PRO-4X checks all the boxes of a legit off-road performer.

Intelligent Around View® Monitor Like a virtual spotter, available Intelligent Around View® Monitor with Off-Road Mode can show more of the trail around you to help you navigate tougher obstacles.
Frontier® backs you up with some of the most advanced standard and available safety and driver assist features you’ll find in a midsize truck, with safety technologies that can help you avoid accidents and give you more peace of mind when you’re towing, hauling, and doing truck things.6, 7

Nissan Safety Shield® 360 and Driver Assist Technologies

Standard Automatic Emergency Braking with Pedestrian Detection8
Available Rear Automatic Braking8
Available Rear Cross Traffic Alert8

Frontier® does more than tow—it’s a truck built to pull your dreams farther off the beaten path. Starting with Tow-Haul mode, which optimizes your drive on the highway for heavier loads. 1 Turn off the highway and Frontier attacks uneven, hilly terrain with features like hill start assist and hill descent control. 1 And confidence-inspiring approach, breakover, and departure angles. When it’s time to get your trailer of choice up that last sketchy hill, engage 4LO and the electronic locking rear differential for maximum traction. 1

- 32.3° - Angle of Approach
- 19.6° - Breakover Angle
- 23.0° - Angle of Departure

Every Genuine Nissan Accessory is custom-fit, custom-designed, and durability-tested. Each one is backed by Nissan's 3-year/36,000-mile (whichever occurs first) limited warranty (if installed by dealer at the time of purchase), and can be financed when installed by dealer at time of purchase. Affiliated Yakima® accessories are not warranted by Nissan. Refer to product manufacturer for warranty details. Nissan Limited Warranty does not cover damages or failures to the vehicle caused by improper installation or alterations of any Nissan approved accessory or component. Contact your dealer/retailer for details.
