ARIYA is an exquisite, future-forward silhouette on every road — and inside, a spacious lounge with haptic feedback controls, seamless dual-screen displays, and modular design cues. And beneath every elegant touch is thrilling innovation: available Dual Motor e-4ORCE™ AWD, ProPILOT Assist 2.0, and driver assist technologies provide all the power and confidence you’d expect from a revolutionary Nissan EV crossover.¹, ², ³, ⁴
The future is all around you.

Inside ARIYA is a spacious experience worthy of the new electric age. Without the limitations of an internal combustion engine, ARIYA redefines our relationship with the space around us. From crafted interior details inspired by old-world Japanese design to a spectrum of advanced innovations — this is the electric future you’ve been waiting for.

- Lounge-like seating up to 5
- Power-sliding center console
- Available Nappa leather-appointed cabin
Even the details innovate
ARIYA’s interior doesn’t just invite serenity — it invites a closer look. Instead of conventional buttons, you’ll find illuminated haptic controls built into the wood-toned surface of your dashboard. Even the textures of your climate console and driving mode controls are engineered to thrill.

Technology for the senses

Chances are, you’ve never experienced anything quite like ARIYA. A combination of refined craftsmanship, groundbreaking technology, and multi-sensory details makes every drive extraordinary. Interactive ANDON floor and door lighting elevate the senses, welcoming you into an immersive cabin experience. And with a stunning 12.3" dual widescreen Integrated Display interface, next-generation voice control, and seamless smartphone connectivity, the road to your electric future is officially open.

Charge ahead with confidence

Infused with Nissan’s long history of EV innovation, ARIYA is more than an electric crossover. With advances like active thermal management to optimize performance in both hot and cold climates, ARIYA’s fast-charging lithium-ion battery system takes technology to the next level. Choose between standard or extended-range capacity — and front-wheel drive or available Dual Motor e-4ORCE All-Wheel Drive. Just charge up and go: the road is yours.

Charge at home With a dedicated wall charger, you can plug into the easy life and wave goodbye to the gas pump.

Charge smart Schedule your home charging from your compatible smartphone and choose times when electricity rates may be lower. That means you can set charging to start while you sleep, and then wake up to an ARIYA 100% ready to go.

Charge on the go An ever-expanding public charging network, including fast charge stations, lets you commute with confidence.

Intelligent Route Planner This digital tool can help make your journey seamless: sync the climate control system with your departure time and calculate the route to your destination while locating fast chargers along the way. This is next-level road-tripping.

SiriusXM with 360L Transform your ride with the most extensive and personalized radio experience on the road. Advanced in-car technology makes finding your favorite SiriusXM channels, shows, and exclusive content easier than ever before.
With available ProPILOT Assist 2.0, driving doesn’t always have to be so hands-on.

**ProPILOT Assist 2.0** Feel the full power of ProPILOT Assist 2.0 as it helps out with freeway lane changes and can provide hands-off, foot-off driving assistance through stop-and-go freeway traffic.1,2

**ProPILOT Park** Tight parking spot? Push the ProPILOT Park button, and glide, hands-off, right into the spot — whether it’s back-in or parallel.1,2

All-Wheel Drive — evolved

AllNew’s available Dual Motor e-4ORCE™ All-Wheel Drive powertrain offers more than just awe-inspiring thrust and thrills. It combines balanced, smooth motion with positive traction for elevated grip and uplifted confidence you can feel year-round.2

Press the accelerator, and Dual Motor e-4ORCE All-Wheel Drive responds with authority, propelling ARIYA up to speed with remarkable force and poise. Dual Motor e-4ORCE All-Wheel Drive precisely meters out power to each of its wheels individually, so you can navigate slippery roads with more confidence.2,3
