

FOR VEHICLES EQUIPPED WITH GOOGLE BUILT-IN*

NissanConnect Services Infotainment Login

Complete your vehicle's infotainment login to activate NissanConnect Services. Once set up, you'll unlock access to remote features, including safety and convenience features through the MyNISSAN app.

Here are some instructions to create, login and pair your user profile to your Nissan. Instructions may vary depending on vehicle model. Make sure to have your MyNISSAN app login credentials handy (same login email and password as your NISSAN ID).

01

Let's get started!

- Make sure your vehicle is in Park and has good cell reception.
- Tap on the home screen:
 -  Check the infotainment screen to see if your vehicle has a signal. If you see this icon, you are ready to start.
 -  If you see this icon it means you do not have a clear signal and should try parking the vehicle in an area with better cell connection.

02

Customize your Profile screen

- Existing profile:
 -  Tap the settings icon on the infotainment screen > "Users".
 - Tap on "Setup Profile" to sign-in to the current user profile. To change users tap "Switch User".
 - Once at the "Finish Profile" screen, tap "Start" to login.
 - If necessary, Accept the Google Terms & Conditions (T&C).
- Set up new profile:
 -  Tap the settings icon on the infotainment screen.
 - Tap "Users" > "Add User" and "OK" > "Set up profile".
 - Enter a name for your profile.
 - Tap "More" and "Accept" if you accept the Google Terms & Conditions.
 - "Customize your profile" will appear on screen. Now you are ready for Step 3.

03

Login to NissanConnect Services in the vehicle

- Once on the Customize Your Profile screen:
 - Tap "NissanConnect Services login" on the screen.
 - Enter your NissanConnect credentials (same as your NISSAN ID email & password used for your MyNISSAN app login).
 - **TIP:** Press to the right of user login email for the keyboard to appear.
 - Tap "Login" to confirm.
 - **NOTE:** Do not press "Next" (varies by model) or exit the screen until a confirmation message appears.
- Once connected, you will get a login successful notification with a check mark. ✓
 - Congratulations! Enjoy using all of the features you unlocked.

04

Login to Google Account

- Tap "Set up Google Assistant and apps".
- Sign in with your phone.
- Scan the QR code on the screen with your smartphone
- Below the QR code you can tap "Try another way" to enter your login credentials directly on the infotainment screen.
- Once you see confirmation that says "You're signed in", tap "Next".
- Follow the prompts related to Google Assistant access, personalization and apps.
- You will see the "Customize Your Profile" screen with a check mark next to Google Assistant and show "Complete". ✓
- You can connect a phone with Bluetooth, add a profile lock, or choose "Done" for now.

05

You're all set!

- **Congratulations!** You've finished setting up your vehicle and have activated NissanConnect Services. You can now access features such as Remote Lock/Unlock, Remote Engine Start, and all kinds of new features in your MyNISSAN app.
