

This does not constitute tax advice. All persons considering use of available incentives should consult with their own tax professional to determine eligibility, specific amount of benefit available, if any, and further details.

STATE OF CALIFORNIA

Plug-In Vehicle (PEV) and Natural Gas Infrastructure Charging Rate Reduction - SDG&E

Short Description: San Diego Gas & Electric (SDG&E) offers discounted rates to customers for electricity used to charge EVs or qualified compressed natural gas fueling facilities.

Beneficiary: San Diego Gas & Electric customer who charges an electric vehicle

Type of Incentive: Reduced rate for electricity

Effective Dates: Current Benefit, No Sunset Date

Value of Benefit: Varies depending on usage

Full Description:

San Diego Gas & Electric (SDG&E) offers lower rates to customers for electricity used to charge PEVs. SDG&E's EV Time-of-Use rates are available in three variations: EV-TOU-2 and EV-TOU-5 bill home and vehicle electricity use on a single meter; and EV-TOU bills vehicle electricity use separately, requiring the installation of a second meter. Lower rates are also available to customers who own a natural gas vehicle (NGV) and use a qualified compressed natural gas fueling appliance at home. For more information about EV Time-of-Use rates, see the SDG&E EV Pricing Plans and NGV Rates (PDF) website.
