

This does not constitute tax advice. All persons considering use of available incentives should consult with their own tax professional to determine eligibility, specific amount of benefit available, if any, and further details.

STATE OF TEXAS

Electric Vehicle Supply Equipment (EVSE) Incentive - Austin Energy

Short Description: Plug-in electric vehicle owners in the Austin Energy service area may be eligible for a rebate of 50% of the cost to purchase and install a qualified Level 2 EVSE, up to \$1,200.

Beneficiary: Purchaser of a qualified electric vehicle charger who is an Austin Energy customer that places the unit in service within the City of Austin

Type of Incentive: Cash Rebate of 50% of the actual cost of Level II EV charger and installation, up to a maximum of \$1,200

Effective Dates: Current Benefit, No Sunset Date

Value of Benefit: Rebates of up to \$1,200. (Follow the link below to apply).

Full Description:

While you can plug the vehicle into a regular 110 volt outlet, a Level 2 station gives you a faster charge. Austin Energy offers EV owners a rebate of 50% of the purchase and installation cost of a Level 2 (240V) charging station.

The maximum rebate amount is \$1,200 for Wi-Fi-enabled charging stations and \$900 for non-Wi-Fi-enabled charging stations.

To qualify for this rebate, you must be an Austin Energy customer.

Installations can be performed by any licensed contractor.

You also qualify for the home charging station rebate if you live in a multifamily property and your charging station is installed in a dedicated space (e.g., garage) for your use only.
