REMOTE KEYLESS ENTRY SYSTEM (if so equipped)

LOCK DOORS
Press the button to lock all doors.

UNLOCK DOORS
Press the button once to unlock the driver’s door only.
Press the button again within 5 seconds to unlock all doors.

RELEASEING TRUNK LID (if so equipped)
Press and hold the trunk release button for longer than 0.5 seconds to open the trunk lid.

USING THE PANIC ALARM (if so equipped)
Press and hold the button for longer than 0.5 seconds. The panic alarm will sound and the headlights will stay on for 25 seconds. The panic alarm stops when it has run for 25 seconds or when any button is pressed on the keyfob.

SILENCING THE HORN BEEP FEATURE
- To deactivate: Press and hold the and buttons for at least 2 seconds.
- To activate: Press and hold the and buttons for at least 2 seconds.

NISSAN INTELLIGENT KEY™ (if so equipped)
The NISSAN Intelligent Key™ allows you to lock or unlock your vehicle, open your trunk and start the engine.

NOTE: It is important to make sure the Intelligent Key is with you (that is, in your pocket or purse).

- The operating range of the door and trunk lock/unlock function is approximately 31 in (80 cm).
- Locking the vehicle - Push any door handle Request Switch 01 once.
- Unlocking the vehicle - Push any door handle Request Switch 01 once. The corresponding door will unlock. Push the door handle Request Switch 01 again within one minute; all other doors will unlock.
STARTING THE ENGINE

- Push the ignition knob in.
- Confirm the Intelligent Key warning light is illuminated green.
- Turn the ignition knob to start the engine.

TURNING THE ENGINE OFF

- Shift the transmission into P (Park).
- Turn the ignition knob to the LOCK position.
- An audible warning chime will sound when exiting the vehicle if the ignition knob is not completely turned to the OFF position.

OPENING THE TRUNK

- Push the request/release switch under the trunk handle.
- Pull up and out on the handle to open the trunk.

AUTOMATIC DOOR LOCKS

- All doors lock automatically when the vehicle speed reaches 15 MPH (24 km/h).
- All doors unlock automatically when the ignition is placed in the OFF position (NISSAN Intelligent Key™ equipped vehicles) or when the key is removed from the ignition switch (non-intelligent Key equipped vehicles).

The automatic lock and unlock functions can be deactivated or activated independently of each other. To deactivate or activate the automatic door lock or unlock system, perform the following procedure:

1. Close all doors.
2. Place the ignition switch in the ON position.
3. Do one of the following within 20 seconds of performing Step #2:
   - To change AUTO UNLOCK settings: push and hold the power door lock switch to the UNLOCK position for more than 5 seconds.
   - To change AUTO LOCK settings: push and hold the power door lock switch to the LOCK position (LOCK) for more than 5 seconds.
4. When activated, the hazard indicator will flash twice. When deactivated, the hazard indicator will flash once.
5. The ignition switch must be placed in the OFF and ON position again between each setting change.
WINDSHIELD WIPER/WASHER SWITCH

- The ignition switch must be in the ON position to activate the windshield wipers.
- Move the lever to the following positions to operate the windshield wipers:
  1A Intermittent (INT) – Front wipers operate intermittently and can be further adjusted by twisting the time control ring 1B.
  02 Low Speed (LO) – Continuous low-speed operation of front wipers.
  03 High Speed (HI) – Continuous high-speed operation of front wipers.
  04 Mist (MIST) – Lift the lever up for one sweep of the front wipers.
- Pull the lever toward you to activate front washer fluid and several sweeps of the wipers.

HEADLIGHT AND TURN SIGNAL CONTROL

HEADLIGHT CONTROL SWITCH

- Turn the headlight control switch 01 to the position to turn on the front parking, tail, license plate and instrument panel lights.
- Turn the headlight control switch 01 to the position to turn on the headlights. All other lights remain on.

FOG LIGHT OPERATION (if so equipped)

NOTE: The headlights must be on and the low beams selected for the fog lights to operate.

- Turn the switch (inside collar) 02 to the position to turn on the fog lights.
- Turn the switch (inside collar) 02 to the OFF position to turn off the fog lights.

HIGH BEAM

- Push the headlight control switch forward A to select the high beam function. The blue indicator light in the instrument panel will illuminate. Pull the headlight switch back to the original position to select the low beam. The blue indicator light goes off.
- Pull and release the headlight control switch B to flash the headlight high beams on and off.
STEERING WHEEL SWITCHES FOR AUDIO CONTROL/BLUETOOTH® (if so equipped)

- Press the **MODE** button to turn the audio system on.
- To choose AM, FM1 and FM2 Presets, CD or AUX, press **MODE** repeatedly.
- The tuning up or down ‡ switch can be used to perform the following:
  - Push the ‡ switch for less than 1.5 seconds to change to a preset station.
  - Push and hold the ‡ switch for more than 1.5 seconds to seek the next or previous broadcasting radio station.
  - Push the ‡ switch while playing a CD (if so equipped) for less than 1.5 seconds to change tracks on the CD.
- Push the + or – control switch to increase or decrease the volume.

CRUISE CONTROL (if so equipped)

- To activate the cruise control, push the **ON-OFF** switch. The indicator light in the instrument panel will illuminate.
- To set cruising speed, accelerate the vehicle to the desired speed, push the **COAST/SET** switch and release. The SET indicator light in the instrument panel will illuminate.
- To reset at a faster cruising speed, push and hold the **ACCEL/RES** switch. When the vehicle attains the speed you desire, release the switch.
- To reset at a slower cruising speed, push and hold the **COAST/SET** switch. Release the switch when the vehicle slows to the desired speed.
- To cancel cruise control, push the **CANCEL** switch or tap the brake pedal. The SET indicator light in the instrument panel will go out.
- To resume a preset speed, push and release the **ACCEL/RES** switch. The vehicle returns to the last set cruising speed when the vehicle speed is over 24 MPH (38 km/h).
- To turn off cruise control, push the **ON-OFF** switch. Both the CRUISE indicator light and the SET indicator light in the instrument panel will go out.
MANUAL CLIMATE CONTROL

01 FAN SPEED CONTROL BUTTONS
Turn the fan speed control dial to the left (slow) or right (fast) to control fan speed.

02 TEMPERATURE CONTROL DIAL
Turn the temperature control dial for the desired temperature. Turn the control dial to the left for cold air or right for hot air.

03 AIR FLOW CONTROL DIAL
Turn the dial to select the following air flow outlets:
- Air flows from center and side vents with maximum cooling (air conditioning).
- Air flows from the center and side vents.
- Air flows from the center, side and foot vents.
- Air flows mainly from the foot vents.
- Air flows from the defroster and foot vents.
- Air flows mainly from the defroster vents.

The position between and and between and can also be selected with the air flow control dial.

04 DEFROSTING/DEFOGGING FRONT AND SIDE WINDOWS
- Turn the air flow control dial to the front window defroster mode . The A/C automatically turns on when the defroster mode is selected.
- Turn the temperature control dial left or right to set the desired temperature.
- To set the defroster on high, turn both the fan speed dial and the temperature control all the way to the right.

05 DEFROSTING/DEFOGGING REAR WINDOW
Push the rear window defroster switch on. Push the switch again to manually turn the defroster off. This function automatically turns off in approximately 15 minutes.
**A/C ON/OFF BUTTON**
Press the A/C button to manually turn the A/C on or off.

**AIR RECIRCULATION BUTTON**
- Press the air recirculation button to recirculate air inside the vehicle.
- Press the air recirculation button again to turn air recirculation off.
- The air conditioner turns on automatically when the air recirculation button is pressed.
- The air recirculation mode can only be selected if the airflow control mode is in the following positions: ⏯️ or ⏯️.

---

**FM/AM/XM® RADIO WITH CD PLAYER (if so equipped)**

**SCAN BUTTON**
Press the SCAN button to stop at each broadcasting station (FM, AM or XM®) for 5 seconds. Pressing the button again during this 5-second period will stop scan tuning and the radio will remain tuned to that station.

**EJECT BUTTON**
Press the button for less than 1.5 seconds. The CD will then eject.

**STATION SELECT BUTTONS**
Your radio is equipped with three separate banks, each with six station presets. Choose a radio band AM, FM1 or FM2 using the FM/AM button. Tune to the desired station using SEEK/CATEGORY or SCAN tuning. Press and hold any of the desired STATION SELECT buttons (1 - 6) until a beep is heard. The station is now set in memory.
RDM and RPT BUTTONS
Press the RDM or RPT buttons to change the play pattern while listening to a CD or an MP3 CD.

SEEK/CAT BUTTONS
- To scan through each broadcasting station, press the SEEK/CAT buttons.
- To skip from one track to another on a CD, press the SEEK/CAT buttons.
- When the SEEK/CAT buttons are pressed and held while a CD is playing, the CD will rewind or fast forward. When the button is released, the CD will play at normal speed.

FM/AM BUTTON
Pressing the FM/AM button will change the band to either AM, FM1 or FM2 radio stations.

CD BUTTON
Press the CD button to play a CD.

AUX BUTTON
Press the AUX button to play a compatible device such as an MP3 player when it is plugged into the AUX (auxiliary) jack. The AUX button is also used to play a device plugged into the USB jack. If there are devices plugged into both the AUX jack and the USB jack, pressing the AUX button will toggle between the two functions. If so equipped, you can also press the AUX button to access XM® SAT1 and SAT2 preset banks.

NOTE: You may need to adjust the volume on any compatible device plugged into the auxiliary jack to find the most desired sound level of the audio system.

ENTER/SETTINGS BUTTON AND TUNE/SCROLL CONTROL DIAL
- To manually tune the radio, turn the TUNE/SCROLL dial. If playing a CD that is formatted with MP3/WMA folders, turn the TUNE/SCROLL dial to scroll through the available folders.
- To adjust the Bass, Treble, Fade, Balance and Speed Sensitive Volume (SSV) (if so equipped), press the ENTER/SETTINGS button until the desired mode is displayed, then turn the TUNE/SCROLL dial to adjust to the desired level.

iPod® PLAYER OPERATION (if so equipped)
The USB jack is located in the center console. Connect the cable that is supplied with your iPod® to the outlet, and then attach the other end of the cable to your iPod®. If compatible, the battery of your iPod® will charge during the connection to the vehicle.

PLAYING AN iPod®
The interface for iPod® operation shown on the vehicle center display is similar to the iPod® interface. The iPod® can only be operated by the vehicle audio controls while connected.

Select the iPod® by using one of the following methods:
- Press the iPod®/MENU button.
- Press the MODE select switch on the steering wheel.
SEEK/CAT BUTTONS AND TUNE/SCROLL DIAL

- Press the SEEK/CAT buttons while a track is being played; the next track or the beginning of the current track will be played.
- Press and hold either SEEK/CAT (rewind or fast forward) button for more than approximately 1.5 seconds, the track will play while rewinding or fast forwarding. When the SEEK/CAT (rewind or fast forward) button is released, the track will return to the normal playing speed.
- Use the SEEK/CAT buttons or the TUNE/SCROLL dial to scroll through the menu (Playlists, Artists, Albums, Songs, Podcasts, Genres, Composers and Audiobooks) and press ENTER to make a selection.
- If the system is turned off while the iPod® is playing, the iPod® will start when the PWR button is pressed.

*XM® Satellite Radio is only available on vehicles equipped with optional XM® Satellite subscription service.

USB INTERFACE (if so equipped)

- The USB input jack is located in the center console. Remove the protective cover from the USB jack, then insert the USB device into the jack. When a compatible storage device is plugged into the jack, compatible audio files on the storage device can be played through the vehicle’s audio system.
- Press the AUX button to switch to the USB input mode. Depending on how the audio files are encoded, information about the audio files (Folder, Song, Artist, Track number and number of Total Tracks in the Folder) being played will be shown on the display screen of the vehicle.

CLOCK SET/DISPLAY ADJUSTMENT

- Press the ENTER/SETTINGS button until the on-screen clock mode is displayed, then turn the TUNE/SCROLL dial to toggle between clock display on or off.
- To adjust the time, press the ENTER/SETTINGS button repeatedly until the Clock Adjust mode is displayed on the screen.
- The hours will begin blinking, adjust by turning the TUNE/SCROLL dial left or right and press the setting control knob.
- The minutes will begin blinking, adjust by turning the TUNE/SCROLL dial left or right and press the ENTER/SETTINGS button to set and exit.

REARVIEW MONITOR (if so equipped)

When the shift selector is moved to the R (Reverse) position, the monitor display will automatically change to show the area directly behind the vehicle. The colored lines on the display screen indicate approximate distances to objects.

- Red 1.5 ft (0.5 m); Yellow 3 ft (1 m);
- Green 7 ft (2 m) and 10 ft (3 m).
FRONT PASSENGER AIR BAG STATUS LIGHT

This vehicle is equipped with the Nissan Advanced Air Bag System. Under some conditions, depending on the type of occupant or object detected in the front passenger seat by the occupant classification sensor, the front passenger air bag is designed to automatically turn OFF. When the front passenger air bag is OFF, the front passenger air bag status light will illuminate.* For example:

- When the system detects that the front passenger’s seat is occupied by a small adult, child or child restraint as outlined in the Owner’s Manual, the OFF will illuminate to indicate that the front passenger air bag is OFF and will not inflate in a crash.
- When the front passenger’s seat is occupied and the passenger meets the conditions outlined in the Owner’s Manual, the OFF will not illuminate to indicate that the front passenger air bag is operational.

*When the system detects that the front passenger’s seat is unoccupied, the passenger air bag status light will not illuminate even though the front passenger air bag is OFF.

TRIP COMPUTER (if so equipped)

TRIP COMPUTER CHANGE BUTTON

When the TRIP COMPUTER CHANGE button is pressed, the following modes will display on the screen:

- DISTANCE TO EMPTY (DTE) – Estimates the distance that can be driven before refueling.
- INSTANT FUEL ECONOMY – Shows the instant fuel consumption.
- AVERAGE FUEL CONSUMPTION (MPG or L/100 km) – Shows the average fuel consumption since the last reset.
- AVERAGE SPEED (MPH or km/h) – Shows the average speed since the last reset.
- JOURNEY TIME – Shows the time traveled since the last reset.
- RESET – Press and hold the TRIP COMPUTER CHANGE button for more than 1.5 seconds to reset the trip items.

VEHICLE DYNAMIC CONTROL (VDC) OFF SWITCH (if so equipped)

The Vehicle Dynamic Control (VDC) system uses various sensors to monitor driver inputs and vehicle motion. Under certain driving situations, the system will control braking and engine output to help keep the vehicle on its steered path. VDC may need to be temporarily shut off if you are trying to free a vehicle stuck in snow or mud.

- Push the Vehicle Dynamic Control (VDC) OFF switch to deactivate the VDC system. The light will illuminate in the instrument panel gauge area.
- Push the Vehicle Dynamic Control (VDC) OFF switch again to activate the VDC system. The light in the instrument panel gauge area will turn off.
- The VDC system is active while the vehicle is running, until the switch is pressed to turn it off.
TIRE PRESSURE MONITORING SYSTEM (TPMS)
This system monitors tire pressure. If the low tire pressure warning light illuminates, check the tire pressure in all four tires.
Adjust the low tire pressure to the recommended COLD tire pressure shown on the Tire and Loading Information label located in the driver’s door opening. After tire pressures are adjusted, the vehicle will need to be driven at speeds above 16 MPH (25 km/h) to activate the TPMS and turn off the low tire pressure warning light.

SEAT BELT WARNING LIGHT AND CHIME
- The light and chime remind you to fasten your seat belts. The light illuminates whenever the ignition switch is placed in the ON or START position and remains illuminated until the driver’s seat belt is fastened. At the same time, the chime sounds for approximately 6 seconds unless the driver’s seat belt is securely fastened.
- With the ignition ON, the seat belt warning light may also illuminate if the front passenger’s seat is occupied with the front passenger’s seat belt unfastened.

CHILD SAFETY REAR DOOR LOCK
- The child safety lock levers are located on the edge of the rear doors.
- Child safety locks help prevent the rear doors from being opened accidentally, especially when small children are in the vehicle.
- When the lever is in the LOCK position, the door can only be opened from the outside.

FRONT CUP HOLDERS
Adjust the front cup holder size by turning the adjustment knob and sliding the cup holder divider to the desired position.
FUEL-FILLER DOOR AND TRUNK LID RELEASE

FUEL-FILLER DOOR RELEASE
The fuel-filler door release is located on the floor to the left of the driver’s seat.

- To open the fuel-filler door, push down on the release
- To lock, close the fuel-filler door securely.

TRUNK LID RELEASE
The trunk lid release is located on the floor to the left of the driver’s seat.

- To open the trunk lid, pull the lid release up.
- To close the trunk lid, lower and push the trunk lid down securely.

MOONROOF CONTROLS (if so equipped)

The ignition switch must be in the ON position to operate the moonroof controls.

TILTING THE MOONROOF
- To tilt the moonroof up, first close the moonroof by pushing the switch toward UP/CLOSE. Release the switch, then push the UP/CLOSE switch again to tilt the moonroof up.
- To tilt the moonroof down, push the switch toward DOWN/OPEN.

SLIDING THE MOONROOF
- To fully open the moonroof, push the switch toward DOWN/OPEN. To open the moonroof part way, push the switch in any direction while the moonroof is sliding to stop it in the desired position.
- To fully close the moonroof, push the switch toward UP/CLOSE. To close the moonroof partway, push the switch in any direction while the moonroof is sliding to stop it in the desired position.

FRONT SEAT ADJUSTMENTS

- Pull up on the bar under the front of the seat and slide backward or forward; release.
- Pull the lever on the side of the seat to adjust your seatback backward or forward; release the lever when you have found a comfortable angle and the seat belt fits properly.
- Pull up or push down on the adjusting lever (if so equipped) repeatedly to adjust the seat height.
REAR FOLDING SEAT SYSTEM (if so equipped)

INTERIOR TRUNK ACCESS (if so equipped)
Either side of the seatback (or both) can be folded and has its own release.

- Pull the release [01] on the top of the seatback to fold the rear seat down.

FOLDING THE REAR SEAT CUSHIONS AND SEATBACKS (if so equipped)
1. Lift up on the front edge of the seat cushion [02] and fold the cushion [03] toward the front of the vehicle.
2. Pull forward on the head restraint [04] and rotate it to the lowered position until locked.
3. Fold down the seatbacks [05].
4. Reverse the process to return the seat to a seating position. Return the head restraint to the upright position by pushing down and releasing.

CONTINUOUSLY VARIABLE TRANSMISSION (CVT) (if so equipped)

- The CVT does not produce a gear change sensation like traditional automatic transmissions.
- R (Reverse) speed for CVT vehicles is limited to 25 MPH (40 km/h).
- The transmission in your vehicle requires a special fluid available only at your NISSAN dealer. No other fluid will meet the exact requirements of the CVT.
OVERDRIVE (O/D) OFF SWITCH

- Each time your vehicle is started, the transmission is automatically “reset” to Overdrive on.
- To turn Overdrive mode off, push the O/D OFF switch 01. The O/D OFF light in the instrument panel will illuminate.
- Use the Overdrive off mode when you need improved engine braking.

6-SPEED MANUAL TRANSMISSION (if so equipped)

LOCK OUT

- In 6-speed manual transmission equipped vehicles, the shift selector is equipped with a Reverse lock-out feature that prevents accidental selection of Reverse (instead of 1st gear).

SHIFTING TO REVERSE

- Lift up on the collar just below the shift knob, then move the shift selector left and up into Reverse.

BLUETOOTH® HANDS-FREE PHONE SYSTEM (if so equipped)

With an overhead microphone and sound transmitted through the audio system speaker, the Bluetooth® Hands-free Phone System utilizes Bluetooth® wireless technology and voice recognition to provide hands-free cellular phone communication.

SYSTEM OPERATING TIPS

- Close all windows. Surrounding noises may interfere with system operation and performance.
- Press the button on the steering wheel to activate voice recognition.
- Wait for the tone before speaking.
- Begin speaking a command within 5 seconds of the tone.
- Speak in a clear and natural voice without pausing between words.
- To go back to the previous command, say “Go back” or “Correction.”
- To cancel a voice recognition session, simply wait 5 seconds, say “Cancel” or “Quit,” or press the button.
- To increase or decrease the volume of the voice prompts, press the VOL (volume) control button on the steering wheel or turn the POWER/VOLUME knob on the audio system while the system is responding.
If the Voice Recognition system does not recognize your voice commands, train the system using the Speaker Adaptation Mode. See your Owner’s Manual for detailed information.

Some commands are not available while the vehicle is in motion.

The “Help” command can be used in any menu to hear a list of available commands.

Please refer to the cellular phone manufacturer Owner’s Manual for detailed information regarding your Bluetooth® phone.

For recommended phones and detailed instructions, please visit www.nissanusa.com/bluetooth.

CONNECTING YOUR PHONE

To use the hands-free feature, you need to set up, or connect, the system to recognize your cellular phone(s). Five Bluetooth®-enabled phones can be connected. After setup, the system automatically connects with a connected phone when the ignition is in the ACC or ON position, as long as the phone is on and in the vehicle.

NOTE: Some cellular phones require the user to enable the automatic reconnection feature. Please refer to the cellular phone manufacturer’s Owner’s Manual for Bluetooth® setup information.

CONNECTING PROCEDURE

NOTE: The vehicle must be stationary when connecting the phone.

1. Press the button on the steering wheel and wait for the tone.
2. Say “Connect Phone.”
3. Wait for the tone, then say “Add phone.”
4. Initiate connecting from the phone.
   - The connecting procedure varies according to each cellular phone model. For detailed connecting instructions and compatible phones, please visit www.nissanusa.com/bluetooth.
   - When prompted for a PIN code, enter “1234” from the handset. (The PIN code is assigned by NISSAN and cannot be changed.)
5. Say a name for the phone when the system asks you to provide one. You can give the phone a name of your choice.

MAKING A PHONE CALL

1. Press the button.
2. After the tone, do one of the following:
   - Say “Call” then [name]. For example, say “Call” then “Michelle.”
   - Say “Call Phone Number” After waiting for the tone, say [number]. For example, say “Call Phone Number” After waiting for the tone, say “123-456-7891.”
   - Say “Recent Calls” then “Redial” to redial the previous phone number.
   - Say “Call Phone Number” then “Special Number” to dial more than 10 digits or any special characters.
   - You can say all the digits of a 7- or 10-digit phone number at one time.
For a 10 digit number, saying the phone number in groups of 3, 3 and 4 digits may improve recognition for some speakers. To use this group dialing method, say only the first 3 digits of the phone number. After the system recognizes the number, it will request the next 3 digits and finally the last 4 digits.

If a phone number is incorrectly recognized, you can try entering the phone number again using the 3-3-4 group dialing procedure by saying “Correction.”

**RECEIVING/ENDING A PHONE CALL**

When you receive a phone call, a ring tone sounds through the audio system.

- To accept the call, press the button. To reject the call, press the button.
- To hang up the phone at the end of a call or to disconnect during call placement, press the button.

**HOW TO SAY NUMBERS**

NISSAN voice recognition permits numbers to be spoken in a variety of ways.

- Say “zero” or “oh” for “0.” Example: 1-800-662-6200 – Say “one eight zero zero six six two six two oh oh.”
- Say “pound” for “#.” Say “star” for “*” (available when using the “Call Phone Number” then “Special Number” command, and the “Send” command during a call).
- Say “plus” for “+” (available only when using the “Call Phone Number” then “Special Number” command).
- Say “pause” for a 2-second pause.

**USING YOUR PHONEBOOK**

When a phone is connected to the system, the phonebook is automatically downloaded. This allows you to access your phonebook from the Bluetooth® system to call contacts by name. Up to 1000 contacts will be transferred. To access your phonebook:

1. Press the button and wait for the tone.
2. Say “Phonebook.”
3. Wait for the tone, then say [a name] or say “List names.” The name must be said exactly as it is entered in your phonebook for the system to recognize it. For example, say “Phonebook” then “Michelle.”

The phonebook can transfer multiple numbers for each entry. If you select a name with multiple numbers, the system will ask you which number you want to dial.

The system allows for up to 40 voice tags to be recorded. You can record a voice tag for phonebook entries that the system has difficulty recognizing or to directly dial an entry with multiple numbers. To record a voice tag:

1. Press the button and wait for the tone.
2. Say “Phonebook.”
3. Wait for the tone, then say [a name] or say “List names.” Select the name for which you want to record a voice tag.
4. Say “Record Name.”
NAVIGATION SYSTEM (if so equipped)

GETTING STARTED

The Navigation System begins when the ignition is placed in the ACC or ON position. Park the vehicle in a safe location and then operate the Navigation System.

BASIC FUNCTIONS

- Touch the screen to select the item or key displayed.
- Touch the map screen once to activate map scrolling. Then touch the screen again and drag your finger in the direction you want to move. To return to the current vehicle location, push the BACK button.
- To select a menu item from a list, touch the item or turn the SCROLL knob to highlight the selection, then press the SCROLL knob to select the highlighted feature.
- Press the BACK button to return to the previous function shown on the navigation display.
- Not all features can be operated while the vehicle is in motion. These features will become available again when the vehicle is stopped.
- Press the day/night button to switch between the day screen (bright) and the night screen (dark). Within 5 seconds of pressing the button, you can adjust the brightness of the map display screen by turning the SCROLL knob.
- Press the “Voice” key to hear the current navigation situation when a route is active.
**MAP BUTTON**

- Press the **MAP** button 03 to display the vehicle’s current location on the map screen.

- Select the + or - key to zoom in or out.

**NAV BUTTON**

- Press the **NAV** button 01 to display navigation functions.

**TRAF BUTTON**

- Press the **TRAF** button 02 for real time traffic information (requires active subscription to XM NavTraffic® service) and related navigation features*.

**SETUP BUTTON**

- Press the **SETUP** button 04 to change settings for Audio, Navigation, XM**, System or NavTraffic® information*.

* Required XM Radio® and NavTraffic® subscriptions sold separately.
SWITCHING THE MAP VIEW

- Press the MAP button 03. The current location map screen is displayed.
- Select the “Menu” key on the map screen to display the MAP OPTIONS.
- Select the “Map Setup” key.
- Select the “Map View” key to switch between the 2D and 3D views.
- Press the MAP button 03 or the BACK button 05 to accept the changes.

2D VIEW
- Displays the map in a 2-dimensional environment similar to a road map.
- NOTE: In 2D view, you can select the key to switch between “North Up” and “Heading Up” map views.

3D VIEW
- Displays the map in a 3-dimensional or elevated perspective.
- NOTE: In 3D view, the map is always shown in “Heading Up” map view.
STORING YOUR HOME IN THE ADDRESS BOOK

- Press the NAV button 01. Then select the “Home” key.

- Select the “Change” key.

- Select the state. Then select the “Street” key.

- Enter the house number, then select “OK.”

- Enter the street name. Then select the “List” key to pick the correct street name.

- If the street name is found in multiple cities, select the correct city name from the list.
You may be asked to spell the city name to narrow down the matches.

Enter the city name, then select the “List” key to pick the correct city name.

Select the “Save” key. Your home is displayed at the center of the map.

Press the MAP button 03 to return to the current location map screen.

If route guidance is active, you can choose how to use the new destination. Select “Add as Waypoint” to keep the current destination and to add the current location as a waypoint along the route. Select “Current Destination” to cancel the current route and replace the current destination with a new destination.

SETTING A STREET ADDRESS AS A DESTINATION

Press the NAV button 01. Then select the “Destination” key.

Select the “Street Address” key.
- Select the state. Then select the “Street” key.

- Enter the house number, then select “OK.”

- Enter the street name. Then select the “List” key to pick the correct street name.

- If the street name is found in multiple cities, select the correct city name from the list. You may be asked to spell the city name to narrow down the matches.

- Push the “Start” key to calculate a route.
SETTING A PLACE AS A DESTINATION

- Press the NAV button 01. Then select the “Destination” key.

- Select the “Places” key.

- Select “Nearby Restaurants” or “Nearby Gas Stations” to search for destinations near your current position.

- Select the preferred destination from the list.
  - You may need to select the scroll “up” or “down” keys to find the preferred destination.

- A detailed description of the destination is provided.
  - Select “List” to go back and pick another destination.
  - Select “Start” and the system calculates the route to the selected destination.
